

European Certificates for our teachers

Six teachers from primary schools in Młyniec Pierwszy, Lubicz Dolny, and Złotoria have gained new professional skills documented by a European Certificate Europass Mobility through the Erasmus+ project „Let’s code it.

Teacher hackathon” that is being realised by the Municipality of Lubicz. The Europass Mobility is a document containing information about knowledge and qualifications gained in another European country. It can be attained by everyone who comes to another European country in order to learn and gain experience regardless of age or education. The document will help them compete on the regional and national job market, increasing their chances for employment.

The Europass Mobility is a document containing information about knowledge and qualifications gained in another European country. It can be attained by everyone who comes to another European country in order to learn and gain experience regardless of age or education. The document will help them compete on the regional and national job market, increasing their chances for employment.

The Europass Handing Ceremony, lead by Marek Olszewski - Head of Lubicz, and Hanna Anzel - resident of the municipal council took place on 21 June 2018 during the Gala of Education.
